STUDENT SERVICES & ACADEMIC POLICY HANDBOOK

Sample Institutional Document | Academic Year 2026–2027

1. About the Institution

Greenfield Institute of Technology is a fictional higher-education institution offering undergraduate programmes in engineering, computing, business, and applied sciences. The institute operates academic departments, a central library, student support services, residential hostels, laboratories, and a placement development centre.

The Student Services Office is located in Block A, Room 104. Office hours are Monday to Friday, 9:00 a.m. to 4:30 p.m., excluding public holidays. Students may contact student.services@greenfield.example or call extension 204 during office hours.

2. Academic Calendar and Attendance

Semester I runs from 15 July to 20 November 2026. Semester II runs from 7 December 2026 to 23 April 2027. End-semester examinations are scheduled during the final two weeks of each semester. The confirmed timetable is published on the student portal at least fourteen days before the first examination.

A minimum attendance of 75 percent is required separately for each course to qualify for the end-semester examination. Approved medical or official leave is recorded by the department, but approval does not automatically remove the minimum attendance requirement. Students below 75 percent must meet their class adviser and may be marked ineligible for the examination in that course.

Attendance records are updated weekly in the student portal. Discrepancies should be reported to the course instructor within five working days of the relevant class. Later requests may require approval from the Head of Department.

3. Assessment and Grading

A standard theory course is assessed through continuous assessment worth 40 marks and an end-semester examination worth 60 marks. Continuous assessment may include assignments, quizzes, laboratory work, presentations, and internal tests. The instructor announces the assessment breakdown during the first two weeks of the semester.

The minimum passing requirement is 50 marks out of 100 overall, subject to any separate minimum examination requirement specified in the approved syllabus. Laboratory courses may follow a different pattern stated in the course outline.

Students who miss an internal assessment due to a documented medical emergency or approved institutional activity may apply for a make-up assessment. The application and evidence must be submitted within three working days after returning. Revaluation requests must be submitted within seven calendar days after results are published. The revaluation fee is ■500 per course and is refundable only if the final mark changes by five or more marks.

4. Library Services

The central library is in Block C and is open Monday to Saturday, 8:30 a.m. to 7:00 p.m. During examination weeks, closing time may be extended to 9:00 p.m.; extensions are announced on the library notice board and student portal.

Undergraduate students may borrow up to four books for fourteen days. Postgraduate students may borrow up to six books for twenty-one days. A book may be renewed once if nobody has reserved it. Reference books, journals, newspapers, and rare collections must be used inside the library.

The late-return fine is ■5 per book per day. A lost book must be replaced with the same edition where available, or the borrower must pay the replacement cost plus a ■200 processing charge. An institute identity card is required to borrow materials.

5. Hostel Accommodation and Facilities

The residential office manages hostel allocation, room changes, maintenance requests, and visitor registration. Allocation depends on availability, distance from the student's home, year of study, and documented accessibility needs. Applying does not guarantee a room.

Residents must return by 9:30 p.m. from Sunday to Friday and by 10:30 p.m. on Saturday. A late-entry request should be submitted to the warden before 6:00 p.m. on the same day. Emergency late entry may be approved by the duty warden. Visitors must register at reception and leave by 6:00 p.m.; they may not enter student bedrooms.

Annual hostel fees are ■72,000 for a standard shared room and ■96,000 for a single-occupancy room. Mess charges are ■3,500 per month and are billed separately. Maintenance issues should be recorded in the hostel portal. Urgent electrical, plumbing, or safety issues must also be reported to the warden immediately.

6. Information Technology and Student Accounts

Each student receives an institute email address and access to the student portal. Students must keep passwords confidential and must not share account access. The IT Help Desk is in Block B, Room 012 and operates Monday to Friday, 9:00 a.m. to 5:00 p.m.

Password reset requests may be submitted through the portal using the registered mobile number or in person with a valid identity card. A lost phone or suspected account compromise should be reported immediately. The IT team aims to respond to standard service requests within two working days and account-security incidents within four working hours.

Campus Wi-Fi is provided for academic work, research, and ordinary personal use. Unauthorized access attempts, malicious software distribution, network disruption, and privacy violations are prohibited. Large downloads may be restricted during peak hours.

7. Scholarships and Financial Support

The Student Financial Support Office administers merit scholarships, need-based assistance, and emergency grants. Merit scholarships are assessed using the previous academic year's results and published eligibility criteria. Need-based assistance requires household-income proof and the supporting documents listed in the application portal.

For 2026–2027, standard need-based assistance applications close on 30 September 2026. Emergency assistance may be requested throughout the year when an unexpected event affects a student's ability to continue studying. Complete applications are normally reviewed within fifteen working days.

Decisions are sent to the student's institute email. Students must report significant changes in financial circumstances or academic status within thirty days. Assistance cannot be transferred to another student and may be suspended if application information is inaccurate.

8. Career Development and Internships

The Career Development Centre is in Block D, Room 201. It provides resume reviews, mock interviews, aptitude preparation, internship announcements, and employer sessions. Students should maintain an updated career-portal profile to receive relevant notifications.

Internship applicants should review each employer's eligibility criteria, deadline, required skills, and work-location conditions. The employer controls selection; institute training does not guarantee an internship or job offer. Students who accept an offer must inform the placement coordinator within three working days.

Resume clinics take place on the first Wednesday of each month from 2:00 p.m. to 4:00 p.m. Registration is required, and each session is limited to twenty students. Participants should bring a digital or printed copy of their current resume.

9. Student Conduct and Complaints

Students must treat peers, staff, visitors, and campus property respectfully. Plagiarism, falsification of academic records, harassment, bullying, unauthorized entry into restricted areas, and deliberate property damage may result in disciplinary action.

Academic concerns should first be discussed with the course instructor or class adviser. If unresolved, a written complaint may be submitted to the Head of Department. Harassment, discrimination, safety, or serious misconduct complaints may be sent directly to the Student Grievance Committee.

The committee acknowledges a complete complaint within three working days and aims to provide an initial review within ten working days. Confidential information is shared only with staff who need it to assess or resolve the matter, subject to institutional procedures.

10. Campus Health and Emergency Support

The campus health centre is beside the main gate and operates Monday to Saturday, 8:00 a.m. to 6:00 p.m. Basic first aid and initial consultations are available to registered students. Medication, laboratory tests, and specialist consultations may involve additional charges.

For an on-campus emergency outside health-centre hours, contact campus security at extension 100 or use the emergency contact displayed on hostel and classroom notice boards. The security desk operates twenty-four hours a day. When reporting an emergency, provide the exact location, nature of the incident, and a callback number.

11. Key Contacts

Service	Location	Contact
Student Services Office	Block A, Room 104	Extension 204
Central Library	Block C	library@greenfield.example
IT Help Desk	Block B, Room 012	it.help@greenfield.example
Financial Support Office	Administration Block, Room 110	financial.support@greenfield.example
Career Development Centre	Block D, Room 201	careers@greenfield.example
Campus Security	Main Gate Security Desk	Extension 100 (24 hours)
Hostel Residential Office	Hostel Administration Building	hostel.office@greenfield.example

Note: Greenfield Institute of Technology and all contact details in this handbook are fictional and are intended solely for software testing and demonstration.
